

Transforming perceptions

Accelerate your research with Thermo Fisher Scientific

Uncover exciting technological advances in the world of research at our local Transform events in Turkey throughout September 2018

You are invited to come along to our events in Istanbul, Ankara or Izmir to hear local key opinion leaders and Thermo Fisher Scientific experts talk about the latest technology advances that help optimise your research workflows.

Each event will have 2 key sessions and will provide informative talks and updates on a variety of technologies and applications, such as:

- Western Blotting
- Antibodies
- Cell Imaging
- Stem Cells and CRISPR editing
- Genetic Analysis
- Oncology
- Human Genetics and Reproductive Health
- MicroArray
